

Brad Coors to Present C5 Medical Werks at In³ Summit

Company to be featured at medical technology industry networking conference.

DENVER, CO (May 31, 2007) —Brad Coors, Founder and President of C5 Medical Werks, a wholly-owned subsidiary of CoorsTek, will address spine and orthopaedic company attendees at the In³ Medical Device Summit in San Francisco on June 4. The In³ Summit is the nation's largest strategic partnership and investment gathering for medical technology executives.

The upcoming Medtech Insight Conference, "Investment in Innovation: A Preview of Early-stage Medical Technology Companies," is the ideal forum for C5 Medical Werks, which focuses exclusively on serving the medical device industry, to showcase their innovative, advanced ceramic solutions to implantable device manufacturers.

Drawing on nearly 100 years of technical ceramic expertise, C5 Medical Werks serves a customer base comprised of manufacturers with product lines that include ceramic spinal implants, ceramic hip replacement implants, ceramic dental implants and other custom ceramic implantable components. The state-of-the-art manufacturing facility in Grand Junction,

Colo., provides advanced materials development, forming technologies, firing equipment, precision finishing and precision measuring equipment that allows the company to meet the highly specialized demands of implantable device manufacturers around the globe. C5 can also assist with navigation technologies and future implants, which will transmit data related to wear, stress loads or positioning.

“We are pleased to have the opportunity to address key decision makers at this important conference,” notes Brad Coors. “The market is responding favorably to us. I have absolute confidence that C5 Medical Werks has tapped into a real need for the medical device industry, which is providing a highly technical, quality certified, customer-oriented source of manufacturing for legacy products and prototyping next generation ceramic implant technologies. We provide a level of sophistication and assurance that our customers appreciate.”

The company has immediate plans to expand its ability to provide non-implant components, such as sheer valves, piston and cylinder assemblies, cauterizing instrument tips, x-ray vacuum tubes, microwave stations, electrosurgical tips, high intensity lamps and robotic surgical instruments.

About C5 Medical Werks

C5 Medical Werks is a leading provider of ceramic solutions for the medical device industry. The company's capabilities include state-of-the-art manufacturing equipment, specially formulated ceramic materials and a comprehensive quality system – including certification to ISO 13485:2003. Product lines include ceramic implantable components to be used in hip, spine, and dental applications, as well as other potential custom implant components. C5 Medical Werks excels at manufacturing premium implantable components that help people live better lives.

C5 Medical Werks is located at 2451 River Road, Grand Junction, CO 81505. For more information, please visit www.c5medicalwerks.com or call (877) 259-3757.
