

C5 Medical Werks to Sponsor Orthopedic Expo

Fort Wayne conference and exhibition focuses on design and technology.

DENVER, CO (September 26, 2007) — C5 Medical Werks, a wholly-owned subsidiary of CoorsTek, will sponsor the Exhibitor Welcome Reception at the Orthopedic Design & Technology Expo to be held October 29-31, 2007, at the Grand Wayne Convention Center in Fort Wayne, Ind. The October 29th evening reception is the kick-off to two days of product exhibits, a full agenda of breakout sessions streamlined into two tracks covering engineering and design and orthopedic business issues, as well as panel discussions that address advances and the state of the industry today.

Now in its second year, the Orthopedic Design & Technology Expo focuses on key issues of interest to orthopedic device manufacturers and suppliers such as emerging technologies and marketing trends. The Expo also affords attendees a number of opportunities to network with industry professionals from leading orthopedic product manufacturers, contract manufacturers and OEM and service companies.

“Hosting the Welcome Reception provides the opportunity for C5 Medical Werks to welcome industry experts and conference participants to the Expo and to support innovation and excellence in our industry,” said Andrew Nield, Director of Sales and Marketing at C5 Medical Werks, which provides advanced solutions for ceramic spinal implants, ceramic hip replacement implants, ceramic dental implants and other custom ceramic implantable components to the worldwide medical device industry.

The company’s state-of-the-art manufacturing facility in Grand Junction, Colo., provides materials development, forming technologies, firing equipment, precision finishing and precision measuring equipment that allows the company to meet the highly specialized demands of implantable device manufacturers. C5 also assists with navigation technologies and future implants, which will transmit data related to wear, stress loads or positioning. The company’s future plans include expansion into the area of non-implant components, such as sheet valves, piston and cylinder assemblies, cauterizing instrument tips, x-ray vacuum tubes, microwave stations, electrosurgical tips, high intensity lamps and robotic surgical instruments.

About C5 Medical Werks

C5 Medical Werks is a leading provider of ceramic solutions for the medical device industry. The company’s capabilities include state-of-the-art

manufacturing equipment, specially formulated ceramic materials and a comprehensive quality system – including certification to ISO 13485:2003. Product lines include ceramic implantable components to be used in hip, spine and dental applications, as well as other potential custom implant components. C5 Medical Werks excels at manufacturing premium implantable components that help people live better lives.

C5Medical Werks is located at 2451 River Road, Grand Junction, CO 81505. For more information, please visit www.c5medicalwerks.com or call (877) 259-3757.
